

HUTTON PARISH COUNCIL

HUTTON PARISH COUNCIL CLERK'S REPORT (Information only) JANUARY 2011

- The approach to United Utilities (Groundworks) for funding support to assist with improvements around the shops area has regrettably been declined. The Parish Council working group are now putting together a letter to shop/land owners to advise them of the situation and decide whether it is still appropriate to pursue this project at the present time.
- PLANNING APPLICATION 2010/0714 was finally approved after several amendments. Permission was given to a reduced height garage to the rear of 162 Liverpool Road with a condition that it must not be used for other than residential requirements. The application for a playhouse to the rear had previously been withdrawn.
- Complaints with regard to obstructive parking on Ratten Lane were brought to the attention of the police at the last PACT meeting.
